Chairmen's Message on Q3'FY25 Financial Results | 1/2

Mr. Shyam S Bhartia
Chairman
&
Mr. Hari S Bhartia
Co-Chairman

"We are pleased to announce significant year-on-year growth for this quarter, attributed to the enhanced performance of our Specialty Chemicals and Nutrition businesses, as well as to the benefits derived from cost-saving initiatives implemented in recent quarters.

We are also glad to share that the Board has recommended an interim dividend of 250%, which equates to Rs 2.5 per equity share with a face value of Re 1 each for FY'25. This will result in a cash outflow of Rs 39.8 Crore.

Markets Update:

*Globally, **Chemicals Markets** are witnessing gradual volume improvements, but pricing is staying muted in most segments and regions. We expect the volume growth momentum to continue into 2025, while price recovery may still be slow.*

*The **Pharmaceutical End-Use market** continues to see steady demand, bolstered by stable pricing and volume placements. Our Pharma portfolio in the Fine Chemicals business mirrors these trends. However, we continue to encounter challenges in the Acetyls business due to low demand in the Paracetamol segment.*

*The **Agrochemical sector** has continued its upward momentum this quarter, driven by positive volume growth on both year-over-year and quarter-over-quarter basis. However, average prices in the sector have remained flat, indicating potential price stabilization.*

*The **Nutrition market** experienced a continued resurgence in demand. Niacinamide demand remained stable with a slight price increase during the quarter. Choline demand saw stronger growth, however faced pricing pressure from imports.*

Business Update:

*In the **Specialty Chemicals Business segment**, we observed a notable YoY increase in volumes for the high-margin Fine Chemicals segment. The Diketene segment within Fine Chemicals experienced significant year-over-year volume growth and stronger price improvements. The Pyridine & Picolines segment also showed substantial YoY growth driven by higher volumes. Additionally, the CDMO business continues its traction with an increase in inquiries from customers in the pharmaceutical, agrochemical and semiconductor sectors.*

Chairmen's Message on Q3'FY25 Financial Results | 2/2

Mr. Shyam S Bhartia
Chairman
&
Mr. Hari S Bhartia
Co-Chairman

*The **Nutrition and Health Solutions Business segment** experienced continued Y.o.Y and Q.o.Q volume growth, primarily driven by significant volume increases in choline products, while Niacinamide volumes remained stable. We also saw uptick in Niacinamide prices last quarter.*

*In the **Chemical Intermediates Business segment**, we observed Y.o.Y volume improvements driven by Ethyl Acetate sales. Acetic Anhydride volumes were muted due to low demand in the Paracetamol segment. Prices in this segment remained under pressure and impacted margins significantly.*

Commissioning of cGMP Niacinamide Facility:

We are pleased to announce the commissioning of our new cGMP-compliant Vitamin B3 facility in Bharuch, Gujarat. This facility will produce nutraceuticals and dietary-active ingredients for human consumption in food and cosmetics segments. The production of these new grades of Vitamin B3 will significantly boost our presence in the value-added products market, offering high-value and high-margin solutions.

World Economic Forum- Global Lighthouse Network Award:

We are also proud to announce that Jubilant Ingrevia Limited has received the prestigious Global Lighthouse Network Award from the World Economic Forum. This honour recognizes our Bharuch manufacturing facility for its outstanding integration of Fourth Industrial Revolution technologies, making us the only chemical company worldwide in the 2024 cohort to achieve this distinction.

Future Outlook:

We anticipate continued upward momentum and improvements in our overall business performance in ensuing quarters, driven by advancements in the Speciality Chemicals and Nutrition & Health Solutions business segments, as well as through our continued efforts to manage the costs efficiently. In line with recent quarters, our primary focus remains on leveraging newly commissioned plants, and enhancing operational efficiency to deliver improved sequential performance in Q4 of FY25.

We are committed to our growth plans through our ambitious Pinnacle 345 vision, and we are on track to achieve the same”.

Major events / milestones

Q3 & 9M'FY25 Highlights

Market Overview: Q3 & 9M'FY25 | Volumes recovering across segments, but prices remain muted

PHARMA

- Experiencing steady demand with volume visibility across segments, and notable volume growth in pyridine derivatives.
- Prices being stable across segments, with some areas experiencing an uptick.
- Paracetamol end-use demand remains under pressure as customers operate their plants below optimal capacity.

AGROCHEM

- Global inventory destocking issues are diminishing, demand is gradually returning, and a full volume recovery is expected in coming quarters.
- Volumes in pyridine-based products are gradually recovering.
- Future expansion in select agrochemical products will boost pyridine demand.

NUTRITION

- Significant YoY and QoQ Increase in volumes for Choline (B4) but pricing were muted due to competition
- Niacinamide volume remained stable, whereas prices witnessed upward trend
- With newly commissioned cGMP food and cosmetic grade vitamin B3 plant, poised to increase traction in Human nutrition grade products

Key business highlights Q3FY25: Continued growth momentum in our core categories, higher margins on account of product mix & cost initiatives

Core product platforms continue to drive growth and leadership in Q3; Acetyls folio saw increasing momentum on non-AA products

- **Pyridine & Picoline:** Significant volume growth on YoY basis; Prices moved up in some segments
- **Niacinamide:** Maintained leadership position (Top 2) in feed grade with YoY growth in volumes and uptick in prices
- **Choline:** Maintained #1 position in Choline market; Recovered share with QoQ and YoY growth
- **Acetyls: Non-AA products** (Ethyl Acetate, Acetaldehyde) volumes grew YoY offsetting marginal Acetic Acid YoY volume dip; Prices remained under pressure for all.
- Retained market share in Acetic Anhydride, while increased share in Ethyl Acetate & Acetaldehyde.

Increasing share of Specialty & Nutrition, Specialty EBITDA crosses 140cr+

- **62% revenue share (LQ: 59%) & 87% EBITDA share (LQ: 73%)** of Specialty & Nutrition in portfolio
- **Strong YoY Revenue growth:** P&P, Fine Chemicals, Microbials & Nutrition
- **Traction continues in growth areas:** Diketene (YoY growth), Semicon (More samples sent in Q3)

Increasing revenue mix of US & EU/Japan; Investing to build capability in these regions

- **Growing International revenue:** 45% Revenue share (vs 34% LY); 47% YoY revenue growth
- **US Revenue grew 2X YoY, EU + Japan revenue grew 43% YoY; Structured KAM** (Key Account Management) program in place
- **Expanding our BD teams** across US, Europe and Japan.

Unlocking efficiency, enhancing safety, continuing ESG focus

- **Key initiatives continue to deliver:** Substantial savings (**120Cr+ P.A**) from Surge, Lean, BE & Energy
- **Phase-2 cost optimization plan launched** with an aim to drive **Higher annualized savings**

Capex on track

- **Commissioned** Food and Cosmetic grade Niacinamide & Niacin plant at Bharuch
- **Capex underway for the two new agro CDMO orders** announced in last quarter

Revenue & EBITDA during the quarter was impacted on account of :

Speciality Chemicals

Significant volume growth observed in **Agrochemicals on yoy and QoQ basis.**

Enhanced Sales momentum from, **Diketene & Derivatives coupled with price uptake.**

Nutrition & Health Solutions

Revenue growth was driven by strong Y-o-Y increases in **Niacinamide and Choline sales.**

Chemical Intermediates

Uptick in volumes of Ethyl Acetate was offset by decline in **Acetic Anhydride volumes**

Overall **Chemical intermediate Volumes increased on YoY basis**, whereas QoQ volumes remained flat. Revenue declined due to lower Acetic Anhydride prices

Lower Input costs

Achieved cost efficiencies through initiatives targeting productivity, yield, and energy cost reduction by employing Lean initiatives

1. All figures are in Rs Crore unless otherwise stated

Our recovery in EBITDA and growth momentum continues from the lows of H2FY24

Despite the pressure on acetyl volumes, we have achieved significant overall volume growth.

EBITDA growth| We continue to see secular YoY EBITDA growth across Specialty Chemicals and Nutrition along with margin expansion in Specialty

Specialty Chemicals

EBITDA (Rs Cr.)

Y.o.Y Growth 120%
Q.o.Q Growth 39%

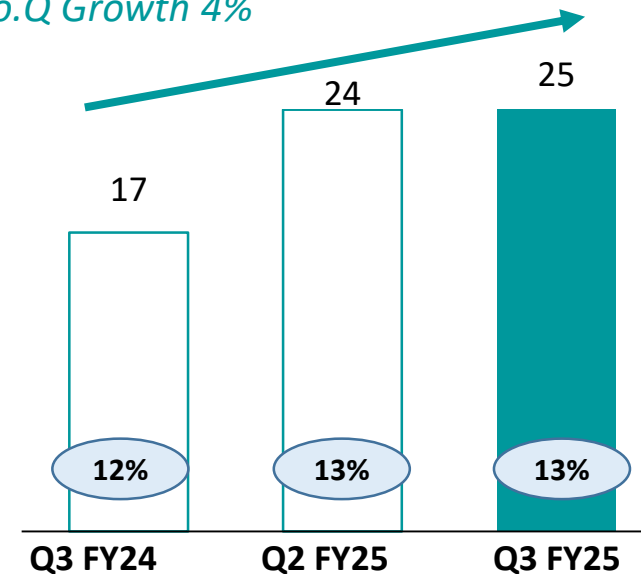

- Significant Improvement in volumes and prices on YoY basis driven by Pyridine and Diketene
- CDMO business continued to get good traction and new leads.
- Cost benefits derived from **Lean and BE initiatives**

Nutrition & Health Solutions

EBITDA (Rs Cr.)

Y.o.Y Growth 44%
Q.o.Q Growth 4%

- YoY growth driven by increase in **volumes of Niacinamide and Choline Products**(Vitamin B4)
- YoY pricing uplift in Niacinamide; Choline pricing remained under pressure from imports across YoY & QoQ

Business Segments Overview

1 Specialty Chemicals | Market, Business & Financial Highlights

MARKET HIGHLIGHTS

Pharma

Consistent demand improvement from the end-use segment kept volumes strong, while pricing remained stable with increases in select segments

Agrochemical

Observed improvement in volumes on a YoY basis, with steady pricing on QoQ basis

Inventory destocking appears to be waning

CDMO

Experienced QoQ increase in volumes, driven by a growing number of inbound inquiries from the Agro, Pharma, and Semiconductor sectors

BUSINESS HIGHLIGHTS

- The CDMO business continued to get good traction; capital expenditure initiated for two agrochem orders announced in last quarter
- The high-margin fine chemical business volumes increased YoY and QoQ, with Diketene volumes rising significantly with improved pricing.

- Revenue increased on a YoY and QoQ basis on account of higher volumes coming from Pyridine and Diketene portfolios
- Margins improved on account of cost efficiencies gained from initiatives focused on enhancing productivity, yield, and reducing energy costs through Lean initiatives

2 Nutrition & Health Solutions | Market, Business & Financial Highlights

MARKET HIGHLIGHTS

Increased sales volume on YoY basis.
Witnessed improved Niacinamide pricing on YoY basis and marginally for QoQ as well

Witnessed improved demand for food-grade products with YoY and QoQ growth

Volumes were strong over QoQ and YoY basis; Pricing remained under pressure from Imports
Cost optimization initiatives and improving product mix underway

FINANCIAL HIGHLIGHTS

% Contribution to EBITDA ²	14%	16%	15%			13%	16%	

- Revenue Improved on YoY basis due to higher sales coming from Niacinamide and Choline products.
- Improvement in EBITDA on YoY basis was primarily driven by Niacinamide
- On QoQ basis, EBITDA remained stable due to the positive impact of Niacinamide and Choline volumes, but impact of higher Niacinamide prices got offset by dip in Choline realizations

BUSINESS HIGHLIGHTS

- Successfully commissioned cGMP-compliant facility for Food & Cosmetic grade Niacinamide, expect to deliver incremental revenue and margins in coming quarters
- With new facility in place, the Company will foray into infant nutrition market globally, with food grade Niacin.
- Food Grade Choline Chloride and Choline Bitartrate, are continuing to gain traction in the market, volumes to grow in coming quarters.

1. All figures are in Rs Crore unless otherwise stated.
2 Before adjustment of Unallocated corporate expense/Income

3 Chemical Intermediates | Market, Business & Financial Highlights

MARKET HIGHLIGHTS

Headwinds continues from the primary end-use markets for Paracetamol

Higher YoY and QoQ volumes of Ethyl Acetate cushioned the impact of declining Acetic Anhydride volumes

Improved production efficiencies and throughput partially offsetting the higher logistics and ocean freight costs

Reduced demand from Paracetamol end-use clients and lower acetic acid prices consequently resulted in lower contribution for Acetic Anhydride

BUSINESS HIGHLIGHTS

- Strategic measures undertaken during the quarter to counter the downward impact in the segment:
 - Higher share of domestic sales of acetic anhydride to mitigate the impact of increased logistics costs associated with export sales
 - Improved cost structure of key products
 - Renewed push on non-Acetic Anhydride portfolio in this segment

1. All figures are in Rs Crore unless otherwise stated.
2. Before adjustment of Unallocated corporate expense/Income
